

## Volunteer DVC Talking Points

### Kamala Harris Bio:

Vice President Harris is a proven leader and a fierce protector of American freedoms – including reproductive rights, economic opportunity, and democracy. As Vice President, she helped to create nearly 16 million new jobs, beat Big Pharma to lower drug costs for hard-working Americans, and so much more. With Governor Walz, she will continue fighting for working families and bring down the cost of groceries and housing.

*To be used to respond to a voter once they have told you their top concerns / priorities for the election*

- **Tim Walz:** Tim Walz is a champion for America's working families. As Governor, he has done more to help middle class families get ahead than any other statewide leader in recent memory. He lowered the cost of insulin to \$35 per month for many in his home state, cracked down on junk fees, and signed the biggest tax cut in state history into law. He also stood up for reproductive freedom and worked across the aisle to pass a bipartisan infrastructure package.
- **Character:** Before becoming Vice President, Kamala Harris served as Attorney General of California and United States Senator where she held bad actors accountable. She is a proven leader and no one is better prepared to prosecute the case against Donald Trump.
- **Abortion:** Trump is “proud” that he handpicked 3 Supreme Court Justices to overturn *Roe v. Wade*, paving the way for extreme bans that have ripped reproductive rights from over 1 in 3 women in America. His Project 2025 agenda would ban abortion nationwide. Meanwhile, Vice President Harris and Governor Walz have led the fight to protect reproductive freedom and access to women's reproductive health care. As President, Kamala will restore the right for a woman to decide what to do with her own body without government interference.
- **Economy:** Vice President Harris is fighting for working Americans, not billionaires. Standing with President Biden, she's helped create nearly 16 million new jobs and capped the cost of insulin at \$35 a month for seniors. Now they're taking on corporate greed to lower costs for everyone, including the cost of housing. **Trump only wants to help his ultra-wealthy friends. He wants to cut Social Security and Medicare while giving tax handouts to billionaires, would gut health care protections for over 100 million Americans with preexisting conditions, and experts have warned that his economic plan would be an “inflation bomb” and raise costs on working families.**
- **Rebuilding America:** After Trump spent four years promising to pass an infrastructure bill without delivering, the Biden-Harris administration worked with Democrats and Republicans to pass a historic investment that rebuilds bridges and airports, creates good-paying jobs, and brings high-speed internet to Americans no matter where they live.
- **January 6:** Trump is the only president in U.S. history to ever try to overturn a free and fair election. This terrible day in our history led to the deaths of five police officers, and Trump has made it a cornerstone of his campaign for revenge and retribution.
- **Support for Veterans:** Kamala believes we have an obligation to care for our service members and their families. This is why she worked with President Biden to pass the PACT Act, the most significant expansion of benefits for toxic-exposed veterans in more than 30 years. Tim Walz knows what it's like to serve our country first hand. **Donald Trump called soldiers who gave their lives “suckers” and “losers” and his Project 2025 agenda would cut veterans' benefits**

### Donald Trump

*To be used if voter Leans Trump & you're responding to their existing concerns*

- **Trump bragged about overturning *Roe v. Wade* and is responsible for states passing extreme abortion bans with no exceptions for rape or incest.** Kamala Harris believes that women's reproductive health care decisions should be made by women and their doctors, not politicians. She is leading the fight to restore the protections of *Roe v. Wade* and will never allow a national abortion ban.
- **Donald Trump believes the tax code should work for himself and his billionaire donors. He's promising another Billionaire Tax Break that would give a yearly \$3.5 million handout per billionaire and tax windfalls to big corporations.** Kamala Harris believes that no billionaire should pay a lower tax rate than a school teacher or a firefighter. That is why she is fighting to give tax cuts to the middle class, while making the ultra-wealthy and big corporations pay their fair share.
- **Trump opened the door to cutting Social Security and Medicare, just like he tried to last time he was in office, but Vice President Harris has vowed to protect seniors from these extreme MAGA attacks.** The Biden-Harris administration capped the cost of insulin at \$35 a month for seniors and lowered prescription drug prices, and Vice President Harris will work to bring down prices further.
